33 department shall take into consideration the recommendations  
34 made as part of the regional trauma system plans approved by the  
35 department and the recommendations made as part of the state  
36 trauma system plan. In cases where a trauma service area is  
37 located within the boundaries of more than one trauma region,  
38 the trauma service area's needs, response capability, and system  
39 requirements shall be considered by each trauma region served by  
40 that trauma service area in its regional system plan. Until the  
41 department completes the February 2005 assessment, the  
42 assignment of counties shall remain as established in this
